
WORKING STUDENT FRONT-END DEVELOPMENT (UI/UX)

Munich | 10-20h per week | up to 20€/hour | Macbook Pro

We are looking for a **student in media design, graphical design, computer science, information systems, maths, physics, you name it** (m/f/d), who seeks to make innovation happen with a hands-on approach. You will support the development of a new, cutting-edge product that is going to revolutionise the way people work together in the future.

You should have **experience in web development** and be familiar with **TypeScript, React, HTML, Sass**. Knowledge of NextJS is an advantage.

To apply, write a short email to jobs@wyte.io with the following information:

- Your CV
 - Describe some of the most important projects you have worked on (private, work, or university) and tell us, why you have been passionate about them
 - Your enrolment certificate
 - Your grades are not relevant to us
-

Who is Wyte?

Wyte is a collective of entrepreneurs unlocking innovation at corporates. We call this startup-as-a-service. Together, we make innovations happen in both digital and technical domains. We follow an approach related to human-centric design and mix people with very different backgrounds to create products and services that work. We also develop our own products, just like a start-up.

Working at Wyte is all about evolving creatively and growing personally, whilst making a change to the world. Both in the big and the small way. You will be working in a young company with open-minded people ready to break with the status quo. Of course, we work hard at times, which does not necessarily mean long hours. Great ideas need contemplative moments of pause and reflection to flourish. Hence, we encourage both a good work-life balance as well as the self-responsibility to stimulate inspiration.

What you will be doing

You will be a vital part of our software development team. As a creative and self-organised person, you will take responsibility for your own areas of work and push those forward. Your most important tasks will be:

- Frontend (React, NextJS) development: UI, UX
 - Implement new features and improve the user interface
 - Develop new ideas and concepts to improve our user experience
- Actively collect user feedback for UI, UX

Your experience and education

We empower a culture of diversity and inclusion, self-taught abilities, and creative thinking. We admire people who are ready to challenge themselves and others. This needs everyone to embrace different points of view and find joint solutions in discourse. For the job to be a perfect fit, some of the things listed below should apply to you:

- Ongoing studies in related field at a German university, preferably Munich
- Knowledge and experience with Typescript and React
- Basic understanding of web development and the most relevant design patterns
- Some Knowledge of GraphQL
- A hands-on mindset and ability to get things done independently
- Talent for visuals and graphic design
- Be fluent in German and English
- Ideally some entrepreneurial experience (failures are ok)

You should have the following kind of mindset

We are especially interested in candidates that are multidimensional. In other words, they combine very different competencies and talents in one person. We are looking for outstanding individuals that have unique personalities and a high variety of interests and skills. These points make you even more interesting:

- Unorthodox thinking
- Don't cling to status quo
- Open for change, do things all over again
- Fascination for new materials, techniques, approaches to design
- Like to break things
- Do things differently
- Artistic sensitivity
- High interest and self-propulsion to learn
- Humor and don't take everything too seriously
- Also great: play an instrument
